# Full Ahead!!

(by *Mario Gandolfi*)

The new year seems to start in the best way for our Association.

Last year our members met on several pleasant occasions (dinners, cocktails, visits, trips, etc.) Thanks to prof. Francesco Pivetta, they had the opportunity to know our town better. The association cruise was a great success.

"Premio S. Giorgio", we take part in, was so crowded that the ceremony had to take place in "Sala delle Compere" which is larger than "Sala dei Capitani" though not so beautiful. There are several ceremonies where the best school students are awarded prizes but ours is surely one of the best.

A new revised edition of the book "La storia del Nautico S. Giorgio" was published.

We follow the changes taking place in the maritime world with great attention. Keeping updated with the changes taking place almost every day is a must for both seafarers and teachers. The Manila amendment to S.T.C.W. has created new issues which are being studied. We hope they will make life easier (and not harder) for the young generations of officers.

This year the Association Board of Directors will be renewed and I wish to thank my colleagues and all the teachers for their support over the past years. I hope the Association as well as Nautico San Giorgio will continue to strive.

# *An Interesting Web Site*

Ettore Lucini, one of our members, is the webmaster of the site

[www.marina-mercantile-italiana.net](http://www.marina-mercantile-italiana.net)

The site contains a gallery of about 6,000 photos of Italian vessels.

It's a great, non profit site worth visiting. We recommend it.

If you happen to have rare/unique unpublished photos of Italian ships you could send them to Ettore Lucini for inclusion in the site photo gallery (provided that you own their copyright or that they are not covered by a copyright).

# *News about NAUTICO San GIORGIO*

(by Virgilio Bozzo)

In the 2015-2016 school year, the number of students attending the school amounted to 1146 (50 classes with an average of 23 students per class). Of the 1146 students, about 10% are girls, about 10% are of foreign origin (34 from Equador, 10 from Albania, 9 from Morocco, etc) and about 10% repeat the year.

Such large number of enrolments had never been reached before. The school had more than 1000 students only seven times since the Unification of Italy, according to our statistics. The previous record was the 1979-1980 school year, with 1112 enrolments.

The school has now four courses: Deck, Engine, Shipbuilding (there are few course for shipbuilders in Italy) and Logistics. The first 37 students attending the course in Logistics got their school-leaving diploma in 2014-2015.
